MD Mahmudul Hasan

Graphics Designer and Data Analyst
Rajshahi, Bangladesh

Summary

☆I am a Graphics Designer and Data Analyst with over 14 years of commercial experience. I always work with full attention and complete sincerity to satisfy my clients' needs.☆

☆I recently offer some basic tasks:☆

Vector Graphics:

- Logo and Icon modification as per clients' requirements
- Logo and Icon Vectorization to get AI, EPS, SVG files
- Editing AI, EPS, SVG, PSD templates
- Change file formats

Raster Graphics:

- Image resizing for websites and social media profile photos
- Image cropping for websites and printing in correct sizes
- Image file size reduction without losing quality
- Changing image DPI to 72 px, 96 px, 120 px, 150 px, 300 px, and so on
- Basic photo editing like object removal
- Image or photo color correction or color change
- Making all images the same size for eCommerce websites
- Background removal, changing, or replacing with other colors
- Making Transparent Backgrounds, output in PNG format

Data Services:

- Image manipulation
- Renaming files
- Data collection downloading files, images, or download public datasets from specific given websites
- Data backup and restore
- Data formatting
- Data verification
- File conversion
- Data organizing and archiving files

- Data cleaning
- Extract data from given documents
- Data Entry and updates
- File manipulation
